PROFILE

I am a Computer Science student currently pursuing my B.Tech at Vivekananda Institute of Professional Studies (graduating Jan 2026). Skilled in full-stack development with React.js, Node.js, MongoDB, and mobile app development using Flutter. Experienced with AWS cloud services and passionate about building scalable applications that solve real problems. Strong foundation in Java, C, C++, and Python, with proven ability to apply learning into practical projects and contribute effectively from day one.

EDUCATION

B.Tech in Computer Science & Engineering

Aug 2022 - Sep 2026

Vivekananda Institute of Professional Studies – Technical Campus (VIPS-TC)

- **Focus areas:** Full-Stack Development, Mobile App Development (Flutter), Cloud Computing (AWS), Data Structures & Algorithms, and Software Engineering.

SKILLS

1. **Programming & Development:** Java, C, C++, Python, JavaScript, SQL.
2. **Web Development:** React.js, Node.js, Express.js, Vite, HTML, CSS, Tailwind CSS, MongoDB.
3. **Mobile App Development:** Flutter, Dart, Firebase, Android Studio.
4. **Cloud & Tools:** AWS (EC2, S3), Git, GitHub, VS Code.
5. **Core Competencies:** Data Structures & Algorithms, Problem-Solving, Software Engineering.
6. **Soft Skills:** Strategic planning, routine management, and collaborative teamwork

CERTIFICATIONS

- **AWS & DevOps Training Certification** : CodeSquadz, Noida July 2025 – August 2025
(Link- https://drive.google.com/file/d/1VNqztIVr8v_pTBYBtIsuJmLQ33--HV1n/view?usp=drive_link)
- **Flutter Mobile App Development Certification** : Brain Mentors July 2024 – August 2024
(Link- https://drive.google.com/file/d/1TqDrcuxl6r-50eBIeJdIZ5XIP4NS7px/view?usp=drive_link)

EXPERIENCE

AWS & DevOps (INTERNSHIP) – CodeSquadz, Noida

July 2025 – August 2025

- Worked with AWS services: EC2, S3, RDS, DynamoDB, CloudWatch, and IAM.
- Practiced DevOps tools and processes: Docker, Terraform, CI/CD pipelines (GitHub Actions), and Linux shell scripting.
- Built and deployed scalable applications on AWS with monitoring and automation.
- Improved version control and team collaboration using Git and GitHub.

Flutter Development (Training) – Brain Mentors

July 2024 – August 2024

- Gained hands-on experience in cross-platform mobile app development using Flutter and Dart.
- Implemented features including authentication, APIs, state management, and responsive UI design.
- Built and tested functional mobile applications for Android.
- Strengthened skills in problem-solving, debugging, and application deployment.

PROJECTS

1. MoonLit – E-commerce Shopping App

Capstone Project | Mobile App Development using Flutter

- Developed a fully functional e-commerce mobile app from concept to deployment.
- Implemented product listings, shopping cart, secure checkout, and user authentication.
- Ensured responsive UI/UX design across multiple devices.
- Managed assets including product images, icons, and media efficiently.

2. Therapique – Mental Wellness Platform

- Developed a platform for mental health management using journaling and community features.
- Built frontend with React.js + TailwindCSS and backend with Node.js/Express, integrated with MongoDB.
- Deployed on Vercel and managed version control using GitHub.
- Implemented responsive UI to enhance user engagement.
